No School November 12

Staff will be participating in Professional Development activities. These days are selected by the District and are mandated by the No Child Left Behind Laws.

Day of Making and Sharing

Each year Midnight Sun has one large all school activity. The activities rotate over a three year period due to the time involvement required by staff.

This year’s all school activity is the Day of Making and Sharing. Students will have an opportunity to participate in three activities throughout the school. All staff members present different activities including, crafts, cooking, and games.

This a great opportunity for staff and students to work together.

In addition, students participate in some fun activities which can go home and be “shared” with their families.
