Mrs. Olsen – 357-6772
Mrs. Tro. – 357-3733
Mrs. Menzia & Mrs. Sandvik – 357-6458

SPECIAL EDITION

This special edition newsletter is mainly to make sure you are aware that MAP testing begins this week on Thursday. Testing will continue on Friday of this week and continue next week on Tuesday and Wednesday.

Please encourage your children to do their best on this winter testing session.

It is helpful for students to get a good night of sleep, eat a healthy breakfast, and come to school with a positive attitude.

Also, parents are not to be in the building during testing. All staff is required by the District and State to sign an agreement that we will maintain specific criteria surrounding the tests and test security. Thanks for your support and understanding with regard to the importance of these boundaries.

Subway delivery parents will need to deliver Subway to the Office on Friday. Ms. Cherry will be in the hall with a table for you to put the Subway on. She will be supervising tests that happen in the office and conference room, so please be aware of that.

Science Fair

This year we are going to be doing some things differently for the Science Fair. The Science Fair will be on April 17. The purpose of the Science Fair is for students to use and demonstrate their understanding of the scientific method. Students will need to have a board that shows the scientific method and results of their experiment. Students DO NOT have to do an abstract this year. A packet with more Science Fair details will be coming home with the newsletter on Thursday.
